

14. Contractor responsibility.
Each contractor responsible for the construction of a main wind- or seismic-force-resisting system, designated seismic system or a wind- or seismic-resisting component listed in the statement of special inspections is required to submit a written statement of responsibility to the building official and the owner prior to the commencement of work on the system or component. The contractor's statement of responsibility shall acknowledge awareness of the special requirements contained in the statement of special inspections and acknowledge that control will be exercised to obtain conformance with the approved construction documents.

15. Deferred submittals.
Deferred submittals that are not submitted at the time of the application must have the prior approval of the building official. The registered design professional in responsible charge shall list the deferred submittals on the construction documents for review by the building official. Documents for deferred submittal items shall be reviewed by the registered design professional in responsible charge who shall forward them to the building official with a notation indicating that they have been reviewed and are in general conformance with the design of the building.
