DARYL KADE

The Department of Health and Human Services is the Cabinet-level department of the Federal executive branch most involved with the Nation's human concerns. In one way or another, it touches the lives of more Americans than any other Federal agency. It is literally a department of people serving people, from newborn infants to persons requiring health services to our most elderly citizens.

The Department of Health and Human Services (HHS) was created as the Department of Health, Education, and Welfare on April 11, 1953 (5 U.S.C. app.).

Secretary The Secretary of Health and Human Services advises the President on health, welfare, and income security plans, policies, and programs of the Federal Government; and directs Department staff in carrying out the approved programs and activities of the Department and promotes general public understanding of the Department's goals, programs, and objectives.

Public Health and Science The Office ensures that the Department conducts broad-based public health assessments

designed to anticipate future public health issues and problems and devises and implements appropriate interventions and evaluations to maintain, sustain, and improve the health of the Nation; provides assistance in managing the implementation and coordination of Secretarial decisions for the Public Health Service (PHS) and coordination of population-based health, clinical preventive services, and science initiatives that cut across operating divisions; provides presentations on international health issues; and provides direction and policy oversight, through the Surgeon General, for the Public Health Service Commissioned Corps.

Administration on Aging

The Administration on Aging is the principal agency designated to carry out the provisions of the Older Americans Act of 1965. It is responsible for all issues involving the elderly. The Administration develops policies, plans, and programs designed to promote the

welfare of the elderly; promotes their needs by planning programs and developing policy; provides policy, procedural direction, and technical assistance to States and Native American tribal governments.

For further information, contact the Administration on Aging, 330 Independence Avenue SW., Washington, DC 20201. Phone, 202-401-4634. Internet, www.aoa.dhhs.gov.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

The Administration for Children and Families provides advice to the Secretary on issues pertaining to children, youth, and families; child support enforcement;

community services; developmental disabilities; family assistance; Native American assistance; refugee resettlement; and legalized aliens.

For further information, contact the Administration for Children and Families, 370 L'Enfant Promenade SW., Washington, DC 20447. Phone, 202-401-4634. Internet, www.acf.dhhs.gov.

Agency for Healthcare Research and Quality

The Agency for Healthcare Research and Quality, as part of the Public Health Service, is responsible for supporting research designed to improve the quality

of healthcare, reduce its costs, address patient safety and medical errors, and broaden access to essential services.

For further information, contact the Agency for Healthcare Research and Quality, 2101 East Jefferson Street, Rockville, MD 20852. Phone, 301-594-6662. Internet, www.ahrq.gov. E-mail, info@ahrq.gov.

Agency for Toxic Substances and Disease Registry

The Agency for Toxic Substances and Disease Registry, as part of the Public Health Service, is charged with the prevention of exposure to toxic substances and the prevention of the adverse health effects and diminished

quality of life associated with exposure to hazardous substances from waste sites, unplanned releases, and other sources of pollution present in the environment.

For further information, contact the Office of Policy and External Affairs, Agency for Toxic Substances and Disease Registry, MS E-60, 1600 Clifton Road NE., Atlanta, GA 30333. Phone, 404-639-0501. Internet, www.atsdr.cdc.gov.

Centers for Disease Control and Prevention

The Centers for Disease Control and Prevention, as part of the Public Health Service, is charged with protecting the public health of the Nation by providing

leadership and direction in the prevention of and control of diseases and other preventable conditions and responding to public health emergencies.

For further information, contact the Centers for Disease Control and Prevention, 1600 Clifton Road NE., Atlanta, GA, 30333. Phone, 404-639-3286, Internet, www.cdc.gov.

Food and Drug Administration

The Food and Drug Administration (FDA), as part of the Public Health Service, is charged with ensuring that food is safe, pure, and wholesome;

human and animal drugs, biological products, and medical devices are safe and effective; and electronic products that emit radiation are safe.

For further information, contact the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857. Phone, 888-463-6332 (toll-free). Internet, www.fda.gov.

Health Care Financing Administration

[For the Health Care Financing Administration statement of organization, see the *Federal Register* of May 2, 1997, 62 FR 24120]

The Health Care Financing Administration was created to combine under one administration the oversight of

the Medicare program, the Federal portion of the Medicaid program and State Children's Health Insurance Program, and related quality assurance activities.

For further information, contact the Health Care Financing Administration, Department of Health and Human Services, 200 Independence Avenue SW., Washington, DC 20201. Phone, 202-690-6726.

Health Resources and Services Administration

The Health Resources and Services Administration (HRSA), as an operating division within the Public Health Service, is the primary healthcare service agency of the Federal Government, making essential primary care services accessible to the poor, uninsured, and geographically isolated. Programs administered by HRSA include maternal and child health services; HIV/AIDS assistance programs; the Ricky Ray

Hemophilia Relief Fund; the Vaccine Injury Compensation Program; and Hansen's disease programs. HRSA attends to the special healthcare needs of people with chronic health needs, minorities, and those living along the U.S. border with Mexico. HRSA also administers the National Health Service Corps, the national practitioner databank, and the healthcare integrity and protection databank.

For further information, contact the Office of Communications, Health Resources and Services Administration, 5600 Fishers Lane, Rockville, MD 20857. Phone, 301-443-2086. Internet, www.hrsa.gov.

Indian Health Service

The Indian Health Service, as part of the Public Health Service, provides a comprehensive health services delivery system for American Indians and Alaska Natives, with opportunity for maximum tribal involvement in developing and managing programs to meet their health needs. It assists Native American tribes in developing their health programs; facilitates and assists tribes in coordinating health planning, obtaining

and utilizing health resources available through Federal, State, and local programs, operating comprehensive health programs, and evaluating health programs; and provides comprehensive healthcare services including hospital and ambulatory medical care, preventive and rehabilitative services, and development of community sanitation facilities.

For further information, contact the Management Policy Support Staff, Indian Health Service, Room 6-34, 5600 Fishers Lane, Rockville, MD 20851. Phone, 301-443-2650. Internet, www.ihs.gov.

National Institutes of Health

The National Institutes of Health (NIH), part of the Public Health Service, supports biomedical and behavioral research domestically and abroad, conducts research in its own laboratories and clinics, trains promising young researchers, and promotes acquisition and distribution of medical knowledge.

Aging The Institute conducts and supports biomedical, social, and behavioral research to increase knowledge of the aging process and the physical, psychological, and social factors associated with aging.

For further information, contact the National Institute on Aging. Phone, 301-496-1752. Internet, www.nih.gov/niha.

Alcohol Abuse and Alcoholism The Institute conducts and supports biomedical and behavioral research, in order to provide science-based approaches to the prevention and treatment of alcohol abuse and alcoholism.

For further information, contact the National Institute of Alcohol Abuse and Alcoholism. Phone, 301-443-3885, or 301-443-3860. Internet, www.niaaa.nih.gov.

Allergy and Infectious Diseases The Institute conducts and supports research, research training, and clinical evaluations on the causes, treatment, and prevention of a wide variety of infectious, allergic, and immunologic diseases.

For further information, contact the National Institute of Allergy and Infectious Diseases. Phone, 301-496-5717. Internet, www.niaid.nih.gov.

Arthritis and Musculoskeletal and Skin Diseases The Institute supports research into the causes, treatment, and prevention of arthritis and musculoskeletal and skin diseases.

For further information, contact the National Institute of Arthritis and Musculoskeletal and Skin Diseases. Phone, 301-496-4353. Internet, www.nih.gov/niams.

Biomedical Imaging and Bioengineering The Institute conducts, coordinates, and supports research, training, dissemination of health information, and other

programs with respect to biomedical imaging, biomedical engineering, and associated technologies and modalities with biomedical applications.

For further information, contact the National Institute of Biomedical Imaging and Bioengineering. Phone, 301-402-7617. Internet, www.grants.nih.gov/grants/becon.

Cancer The National Institute of Cancer developed a national cancer program to expand existing scientific knowledge on cancer cause and prevention as well as on the diagnosis, treatment, and rehabilitation of cancer patients. Research activities encompass basic biological, clinical, prevention, and behavioral research.

For further information, contact the Cancer Information Service. Phone, 800-422-6237 or 301-435-3848. Internet, www.cancer.gov.

Child Health and Human Development The Institute conducts and supports laboratory, clinical, and epidemiological research on the reproductive, neurobiologic, developmental, and behavioral processes that determine and maintain the health of children, adults, families, and populations.

For further information, contact the National Institute of Child Health and Human Development. Phone, 301-496-5133. Internet, www.nichd.nih.gov.

Clinical Center The Center is designed to bring scientists working in Institute laboratories into proximity with clinicians caring for patients, so that they may collaborate on problems of mutual concern. The research institutes select patients, referred to NIH by themselves or by physicians throughout the United States and overseas, for clinical studies of specific diseases and disorders.

For further information, contact the Clinical Center. Phone, 301-496-3227. Internet, www.cc.nih.gov.

Complementary and Alternative Medicine The Center is dedicated to exploring complementary and alternative healing practices in the context of rigorous science; educating and training complementary and alternative medicine researchers; and disseminating

authoritative information to the public and professionals. Through its programs, the Center seeks to facilitate the integration of safe and effective complementary and alternative practices into conventional medicine.

For further information, call 301-435-5042. Internet, nccam.nih.gov.

Deafness and Other Communication Disorders

The Institute conducts and supports biomedical and behavioral research and research training on normal mechanisms as well as diseases and disorders of hearing, balance, smell, taste, voice, speech, and language through a diversity of research performed in its own laboratories, and a program of research and center grants.

For further information, contact the National Institute on Deafness and Other Communication Disorders. Phone, 301-496-7243. Internet, www.nidcd.nih.gov.

Dental and Craniofacial Diseases The Institute conducts and supports research and research training into the causes, prevention, diagnosis, and treatment of craniofacial, oral, and dental diseases and disorders.

For further information, contact the National Institute of Dental and Craniofacial Research. Phone, 301-496-4261. Internet, www.nidcd.nih.gov.

Diabetes and Digestive and Kidney Diseases The Institute conducts, fosters, and supports basic and clinical research into the causes, prevention, diagnosis, and treatment of diabetes, endocrine, and metabolic diseases, digestive diseases and nutrition, kidney and urologic diseases, and blood diseases.

For further information, contact the National Institute of Diabetes and Digestive and Kidney Diseases. Phone, 301-496-3583. Internet, www.niddk.nih.gov.

Drug Abuse The Institute's primary mission is to lead the Nation in bringing the power of science to bear on drug abuse and addiction through the strategic support and conduct of research across a broad range of disciplines and the rapid and effective dissemination and use of the results of that research to significantly improve drug abuse and

addiction prevention, treatment, and policy.

For further information, contact the National Institute on Drug Abuse. Phone, 301-443-1124. Internet, www.nida.nih.gov.

Environmental Health Sciences The Institute seeks to reduce the burden of human illness and dysfunction by understanding the elements of environmental exposures, human susceptibility, and time and how these elements interrelate.

For further information, contact the National Institute of Environmental Health Sciences. Phone, 919-541-3211. Internet, www.niehs.nih.gov.

Fogarty International Center The Center promotes and supports international scientific research to reduce disparities in global health; fosters biomedical research partnerships through grants, fellowships, and international agreements; and provides leadership in international science policy and research strategies.

For further information, contact the Fogarty International Center. Phone, 301-496-2075. Internet, www.nih.gov/fic.

General Medical Sciences The Institute supports basic biomedical research and research training in areas ranging from cell biology, chemistry, and biophysics to genetics, pharmacology, and systemic response to trauma.

For further information, contact the National Institute of General Medical Sciences. Phone, 301-496-7301. Internet, www.nih.gov/nigms.

Heart, Lung, and Blood Diseases The Institute provides leadership for a national program in diseases of the heart, blood vessels, lung, and blood; sleep disorders; and blood resources. It conducts, fosters, and supports an integrated and coordinated program of basic research, clinical investigations and trials, observational studies, and demonstration and education projects.

For further information, contact the National Heart, Lung, and Blood Institute. Phone, 301-496-2411. Internet, www.nhlbi.nih.gov.

Human Genome Research The Institute formulates research goals and long-range

plans to accomplish the mission of the human genome project.

For further information, contact the National Human Genome Research Institute. Phone, 301-496-0844. Internet, www.nhgri.nih.gov.

Medical Library The Library of Medicine serves as the Nation's chief medical information source and is authorized to provide medical library services and online bibliographic search capabilities, such as MEDLINE and TOXLINE, to public and private agencies, organizations, institutions, and individuals.

For further information, contact the National Library of Medicine. Phone, 301-496-6308. Internet, www.nlm.nih.gov.

Mental Health The Institute (NIMH) supports and conducts fundamental research in neuroscience, genetics, molecular biology, and behavior as the foundation of an extensive clinical research portfolio which seeks to expand and refine treatments available for illnesses such as schizophrenia; depressive disorders; severe anxiety; childhood mental disorders; and other mental disorders.

For further information, contact the National Institute of Mental Health. Phone, 301-443-3673. Internet, www.nimh.nih.gov.

Minority Health and Health Disparities The Center advises the NIH Director and the Institute and Center Directors on the development of NIH-wide policy issues related to minority health disparities research, research on other health disparities, and related research training; develops a comprehensive strategic plan governing the conduct and support of all NIH minority health disparities research, research on other health disparities, and related research training activities; and administers funds for the support of minority and other health disparities research through grants and through leveraging the programs of the NIH.

For further information, contact the National Center for Minority Health and Health Disparities. Phone, 301-402-1366. Internet, www1.od.nih.gov/ORMH.

Neurological Disorders and Stroke The Institute's mission is to reduce the burden of neurological diseases by

conducting and supporting fundamental and applied research on human neurological disorders. It also conducts and supports research on the development and function of the normal brain and nervous system in order to better understand normal processes relating to disease states.

For further information, contact the National Institute of Neurological Disorders and Stroke. Phone, 301-496-5751. Internet, www.ninds.nih.gov.

Nursing Research The Institute provides leadership for nursing research, supports and conducts research and training, and disseminates information to build a scientific base for nursing practice and patient care and to promote health and ameliorate the effects of illness on the American people.

For further information, contact the National Institute of Nursing Research. Phone, 301-496-0207. Internet, www.nih.gov/ninr.

Ophthalmological Diseases The Institute conducts, fosters, and supports research on the causes, natural history, prevention, diagnosis, and treatment of disorders of the eye and visual system. It also directs the National Eye Health Education Program.

For further information, contact the National Eye Institute. Phone, 301-496-2234, or 301-496-5248. Internet, www.nei.nih.gov.

Research Resources The Center enhances the research capabilities of institutions and their investigators; provides competitive support to renovate or construct modern biomedical research facilities; purchases shared research instrumentation; and develops or enhances the research capacity among those institutions which have not had the opportunity to fully participate in previous NIH research programs. It funds research networks of centers to facilitate patient-oriented research and provides centers for access to sophisticated biomedical research technology and resource centers and biorepositories to conduct research on human diseases with animal models.

For further information, contact the National Center for Research Resources. Phone, 301-435-0888. Internet, www.ncrr.nih.gov.

Scientific Review The Center receives and assigns applications for peer reviews to scientific review groups whose members hold advanced degrees and are established investigators in the extramural community. After review,

applications are referred to funding components for potential award.
